CASE TO COUNTER SYSTEM

Convert from case to counter in minutes with vibrant SEG Graphics, bringing your exhibit, event or brand to life. This newly updated, all-in-one counter system has a larger interior to hold more products and is more durable than ever before.

1. LARGER INTERIOR holds more display products and accessories. Doubles as storage area for counter.

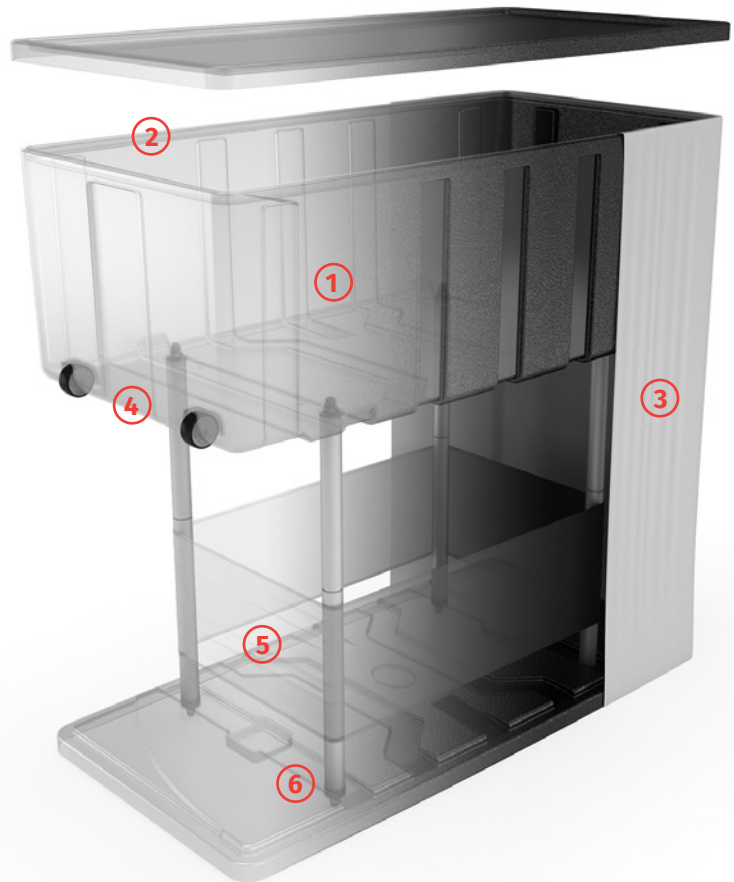

2. STRONGER EDGE PROFILES on the case allows for a new graphic attachment system using SEG - Silicone Edge Graphics.

3. VIBRANT GRAPHICS are dye-sub printed on fabric that wraps around the case for a complete finish.

4. SMOOTH ROLLING - we've put more distance between the wheels for less sway when transporting.

5. POCKET STORAGE slips over the support poles and keeps items from pressing into the graphic.

6. REDUCED FLEX is reinforced by 8 new support pole attachment points that increase stability.

CA700 Case to Counter

Brandable graphic, easy-to-pack and perfect for any event. Plus, it's roomier than most display cases and hides a storage pocket-this is everything you need in a portable counter.
