# Exploded View

# Labeling Diagram

# Connection Methods

## Connection Method 1: ES30 / ES50 / ES75

Compress the unlocked connector and slide one tube onto each end. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not over tighten.

## Connection Method 2: Snap Buttons & Swage

Locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

# Kit Assembly

## Step by Step

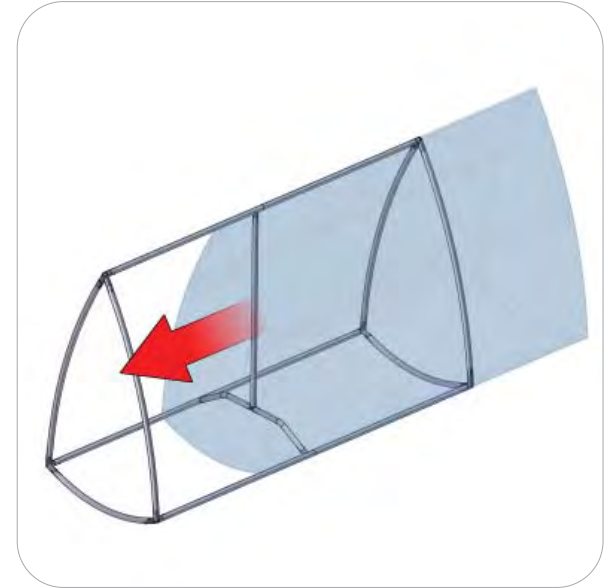

### Step 1.

Gather the components to build the frame with the narrow side laid out on the floor. Use the Exploded View and Labeling Diagram for component position. Reference Connection Method 2 for more details.

### Step 2.

With the frame assembled on the floor, open the zipper pillowcase and pull it over the frame. Close the zipper at the base of the frame then stand the unit upright.

### Step 3.

Setup is complete.
