Kit Assembly

Step by Step

Step 1.

Locate your counter bases and position them together. Lock them together using the locking mechanisms on the top side of the bases. You will need your L-shaped allen key to do so.

Reference the Exploded View for more information.

Step 2.

Locate your triangular truss and fastening hardware. Hand tighten the truss onto the bases with your T-Handle allen key. Locate your silicone edge graphic. Push the silicone edges into the grooves of the counter base assembly.

Reference the Exploded View for more information.

Step 3.

Locate your counter tops and fastening hardware. Starting from one end, hand tighten the truss on to the counter tops with your T-Handle and lock the tops together using your L-shaped allen key.

Reference the Exploded View for more information.

Step 4.

Pull up your silicone edge graphic. Push the silicone edges into the grooves of the counter top assembly. Zipper is located on center of inside curve for convenient counter access and storage.

Setup is complete.
