Charging the Battery Pack

Plug the adapter into an outlet.

The indicator light on the adapter will turn green to indicate power is passing through.

Plug the adapter into the battery pack.

The battery pack lights will illuminate to indicate that it is charging.

The number of lights shown correspond to the percentage the battery pack is charged:
4 lights = 76%-100%, 3 lights = 51%-75%, 2 lights = 26%-50%, 1 light = 1%-25%

Using the Battery Pack

Quickly tap the power button twice to turn on the battery pack. Hold the button to turn on the LED flashlight.

The indicator light will turn green to indicate the unit is on, and ready to use.

Plug in any devices that fit the power criteria of the battery pack to be charged or powered! Battery life will vary based on the power required by your connected devices.
