LINEAR PRO 10X10 KIT 22

Linear Pro Modular Backwall Kit 22 provides a modern, slick and stylish appearance. The extrusion based inline exhibit features a Hook and loop-applied fabric center graphic, UV printed or frosted plex headers and wings, as well as a pillowcase fabric canopy. Two tables provide additional space for products or messaging and are available in four color options. Two 50 watt spotlights provide illumination to messaging. Kit includes two OCH shipping cases.

FEATURES & BENEFITS

- Custom appearance. Easy to assemble
- Hook and loop fastener-applied fabric center graphic
- Comes with your choice of frosted plex or PVC graphic wings and headers
- Pillowcase C-shaped fabric canopy
- Installation tool included

- Aluminum construction: vertical extrusions 75 mm x 50 mm
- Tabletops available in four color options
- Kit includes two OCH cases, two v-leg tables, and two 50 watt spotlights
- Lifetime hardware warranty against manufacturer defects

DIMENSIONS

Assembled unit:
120"w x 99.4"h x 30.625"d

2 OCH Cases:
52"w x 29"h x 12"d

GRAPHICS

Main Panel:
Dye sublimated fabric graphic

Headers & Wings:
Unimprinted frosted acrylic or printed flexible PVC

Canopy:
Solid silver, black, white fabric or custom printed dye sublimated fabric graphic

Refer to related graphic template for more information.

ASSEMBLY

Step 1. Assemble the bottom of the frame
Using the 5MM HEX KEY, attach one PH-1168-L-L to each of the LN-FS-UPRIGHT's with the hook and loop fastener facing front. Attach the opposite ends of the PH-1168-L-L to the PH-1067-L1 using the 5MM HEX KEY. Once all are attached use the 5MM HEX KEY to depress the IB2 lower button and insert into the top of the PH-1067-L1, DO NOT LOCK.

Step 2. Assemble the top of the frame
Make sure the hook and loop fastener is facing towards the front and slide PM3O-1067 onto LN-FS-UPRIGHT on the left and right ends of the frame. Push in the lock button to slide and attach the PH-1067-L1 to the IB2, then lock both buttons. Attach PH-1168-L-Ls to the PM3O-1067s and PH-1067-L1 using the 5MM HEX KEY.

ASSEMBLY

Step 3. Attach graphic support & adhere PANEL CLAMP for graphic headers/wings

Snap attach the WME-1000 (graphic support) onto the frame inside the left and right uprights. Make sure the hook and loop fastener is facing towards the front. Insert 14 PANEL CLAMPS into the outside perimeter channels and turn to lock, other locking screws should be loose. Evenly space out the standoffs for each header.

ASSEMBLY

Step 5. Attach c-shaped canopy
Assemble the frame in order using the number key to attach the tubes and hubs. Pull over the pillowcase and insert the screws through frame parts 1, 7, and the pillowcase slots. Loosely fasten canopy post mounts to screws, DO NOT ZIPPER. Last, slide the post mounts onto the frame and tighten using the 8MM HEX KEY, then zipper the pillowcase.

Step 6. Assemble lights & tables & attach to backwall
Slide the light fixture LUM-LED-ORL-7   onto the light clip. Lift and rest light clip onto top of horizontal channel and run the wires in between and behind the panels. Slide the PHFC2-150-L into the underside of the table. Fasten the table legs to the underside of the table top using the THUMB SCREWS. Once finished turn table over and attach it to the backwall frame (LN-FS-UPRIGHT) using the 5MM HEX KEY on the PHFC2-150-L. Repeat for the second table.
