This product may include the following materials for recycle:

aluminum, select wood, fabric, cardboard, paper, steel, and plastics.
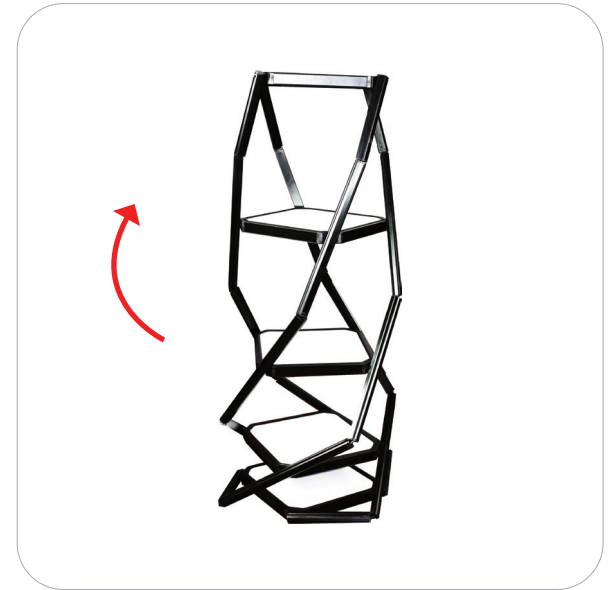

Kit Assembly

Step by Step

Step 1.
Take out of bag and place in desired location.

Step 2.
Pull and twist unit up to extend to full height, push down locking clips to secure.

Disclaimer: When collapsing, undo clips then push and twist unit down in opposite direction for proper disassembly.

Step 3. Optional
Attach lens(es) by inserting stopping clips into channels and resting on top of the clips.

Note: Stopping clips are only necessary for "floating" lenses; if another lens will be fitted below, simply rest one atop the other.

Step 4.
Setup is complete.

Plug the power cord in to a power source/outlet and flip the switch to turn on the overhead lights.
