FILE PREPARATION GUIDELINES

- We recommend building art in this template
- If building art in this template, the color space of this template should match the color space of your art (if art is RGB, make sure template is RGB, etc.)
- All art elements (raster/vector) should use the same color space
- Recommended color spaces are GRACoL 2013 (CMYK) and sRGB
- Design art to the BLEED size listed (which is also the size of this artboard)
- Resolution of raster art/images should be no less than 100 ppi AT FULL SIZE
- All text elements should be converted to outlines
- All raster images should be embedded
- Colors should be applied as process colors and not spot colors
- Turn off the TEMPLATE layer prior to saving your print file for upload

IMPORTANT!

REMOVE ALL GUIDES BEFORE SAVING ART FILE(S)

We are not responsible for printed guide lines. You MUST remove these marks before you save the art file or they WILL print on your final product.
