

Voyager

The Voyager has been specially developed as a briefcase style tabletop display and is a great choice for promotions on the go. It has a rigid, thermo formed ABS exterior and a black, Velcro compatible fabric interior. Detachable graphics allow for easy message changes! Headers shown are an additional option. Extra graphics can be stored in the display and packed away for easy storage. All Voyager systems have a lifetime hardware warranty against manufacturer defects.

Connection Methods

Connection Method 1: VY-CLIP

First, clean the back side for your header graphic panel and peel the release paper off the plastic clips. Be careful when handling your graphic, try not to scratch the printed side. Second, at approximately 12" apart, apply the plastic clips on the back side of your header graphic leaving them permanently affixed and flush to the bottom edge. Third, take your header graphic with clips and rest it on the top edge of the center Voyager™ panel. Make sure that the folding panel handle is up and out of the header resting area.
