WAVELIGHT® INFINITY

EDGE-LIT SEG LIGHT BOX STAND

The WaveLight® Infinity is the first ever continuous Edge-lit SEG Modular Light Box Stand. Using a new patent pending Edge-lit SEG –the borderless Infinity graphic stretches from edge to edge to create a true frameless appearance around the front and back of the light box. When connected together in a modular fashion the graphic seemingly disappears to the eye to create one continuous Infinity image and a completely immersive graphic experience.

KEY FEATURES & ADD-ONS

EDGE-LIT SEG GRAPHICS

New Edge-lit SEG Infinity Graphics stretch from edge to edge to create a true frameless appearance.

CONTINUOUS IMAGE

When two or more stands are connected together, Edge-lit SEG Graphics provide a seeming-less continuous image without frame interruption.

MODULAR LIGHT BOX STAND

Connect displays together in a straight line or at 90° to create a variety of display designs.

FRAME COVER FINISHES

Roll-up frame covers let you match your brand or environment. Available in black, gold or custom printed.

QUICK TOOL-LESS ASSEMBLY

Quick-connect lightweight frames are intuitive and easy to assemble in under a few minutes.

INFINITE POSSIBILITIES

Combine the WaveLight® Infinity with any of the WaveLight®
