# Kit Assembly

Step by Step

Step 1.

Remove the graphic and X-TEND frame out of the carry bag.

Step 2.

Extend the frame to the open position. The rods will snap into place to hold its form.
Make sure the 2 upper rods have a flush hook and the 2 lower rods have a offset hook. All 4 hooks should be in the in the forward position for graphic grommet ring application.

Step 3.

Take the graphic and attach the 2 top grommets onto the upper rods. Make sure the artwork is facing forward and upright.

The X-TEND rods will start to flex and hold the graphic up with tension.

Step 4.

Continue to attach the 2 bottom grommets onto the lower rods. The X-TEND rods will start to flex and hold the graphic in place with tension.

Setup is complete.
