We can all agree that after coats, the most important piece of any winter wardrobe is boots. Not only is it necessary to find boots that will keep you feeling warm and dry, but you'll also want a pair that looks trendy and goes well with everything in your closet.

We rounded up the top winter boot trends everyone should know for winter 2023/2024 so you can shop for this season's favorite looks. What we love most about this year's winter boot trends is that many have interchangeable aspects, so one pair of boots can represent a couple of trends in one [style](#).

5. Shearling Boots

With a warm, soft feel, it's no surprise that so many brands are using shearling and faux-shearling in winter boots. You can find the fabric used as a lining or accent trim on several styles of boots – each great for keeping cozy as the weather gets colder.
