SAFETY INFORMATION

GENERAL

Read this instruction manual carefully and keep it in a safe place for future reference.

The correct use and maintenance of this product is essential.

MAINTENANCE

Regularly check that the product is functioning correctly. Tighten and adjust to ensure secure smooth operation. Inspect all components regularly and stop using if any component is damaged or missing.

Refer to page 11 for cleaning instructions.

WARNINGS

Adult assembly required.

Carefully read all instructions before assembly and use of the product.

Dispose of all packaging materials carefully after assembly.

Not suitable for use of children under the age of 18 months or when the child is over the age of 5 years.

Only use the Bed Rail when the child is able to climb in and out of the bed unaided.

The Bed Rail should not be used as a substitute for a cot as it does not provide the same level of safety as a cot.

The Bed Rail should be periodically checked for its general condition with particular reference to the security of any locking mechanism and / or hinges that are used on the product.

Intended for use with beds sized 1400 - 1900mm (55"- 75") in length, up to 1850mm (73") in width and with mattress thickness of 130 - 270mm (5"- 10.6").

Intended for use with single, double, queen size, king size beds or children's mattress only.

WARNINGS

Any additional or replacement parts should be obtained from After Sales Support.

The Bed Rail should not be used on a sleeping surface that is more than 600mm (23.6”) from the floor.

To prevent risk of strangulation, it is essential to ensure that when the Bed Rail is fitted into position, there is a gap of at least 250mm (10”) between each end of the bed and the corresponding end of the Bed Rail.

Care should be taken in unpacking and assembly.

Fit the bed rail so that its side, when placed in the fitted position, touches the side of the mattress.

The Bed Rail should not be used unless securely fitted between the bed and the mattress.

Once fitted into place, the Bed Rail should be checked to ensure that it is properly fitted and secure.
