# BERG WAS FOUNDED BY ONE OF YOU

BERG  
History

*BERG originated on the edge of the Veluwe nature reserve in The Netherlands. There the young BERG watched cars and tractors ride in and out of the farmyard every day. He was sick of walking and cycling, and longed to have a four-wheeler. In a farm shed, he spent months working to build his dream.*

*One day, the time finally came. With his hair flapping in the wind and a grin from ear to ear, the young BERG rode his home-made go-kart out of the farmyard. The children in the village watched him jealously. They so wanted to change places with him. That made an unforgettable impression on him. He realised that a young BERG exists in everyone. And that's why you can now buy your very own BERG.*

## WELCOME TO OUR WORLD

We are BERG. We make it possible for you to jump, ride and fly through the open air.

We seek to push to the limits of our happiness, completely empty your mind now and again. Be active in the open air, relax through effort and have fun on your own or together with friends.

You can stretch your limits with a BERG, you can do so much more than you think. With a BERG, you push boundaries. You can do more than you think.

You want to go faster, higher, and better. Your BERG is always there for you.

Feel confident even when the road is bumpy.

Feel at home the moment you step outside. Your BERG grows with you and never lets you down. For a lifetime.

*Welcome to the world of BERG. It is now yours.*

### Safe

You want carefree enjoyment of your BERG, so we pay a great deal of attention to the safety of our products. All materials are of the highest quality, all products are ergonomically designed and are extensively tested so you can enjoy years and years of fun with your BERG.

### Responsible

We have the world on loan from our children, at BERG we do our part with sustainable and timeless products that last for generations. When you buy a BERG, you know it was made with consideration for people and the environment.

### Design

Functionality is the most essential thing about a BERG, everything must always work well but looks are also important. That's why our designers work hard every day towards functional and innovative design, so your BERG not only works wonderfully well, but also looks great and is instantly recognisable.

## TRAMPOLINES

*Our trampolines are incredibly popular, hardly surprising as they are great quality and long lasting. You can burn off excess energy, get a workout in or simply enjoy being outdoors. BERG has a suitable and safe trampoline for everyone. All trampolines with a safety net (except the Pro Bouncer) are our play trampolines and therefore designated for children from 6 years of age. Trampolines without safety nets and the Pro Bouncer with safety nets are our SPORTS trampolines, they are suitable for jumpers 14+. Read on to discover more about our trampoline lines, shapes and heights.*

## BERG FAVORIT, CHAMPION & ELITE

- Favorit:** On the Favorit you will discover how much fun jumping can be. This is the trampoline for the whole family.
- Champion:** The Champion is the solid base you need. You already know what jumping is all about, so you want more. Champion ECO has all the qualities of the Champion but is even more durable.
- Elite:** Higher, faster and more fun. You want to go for the maximum. With Elite, you get the best out of yourself.

## BERG PRO BOUNCER

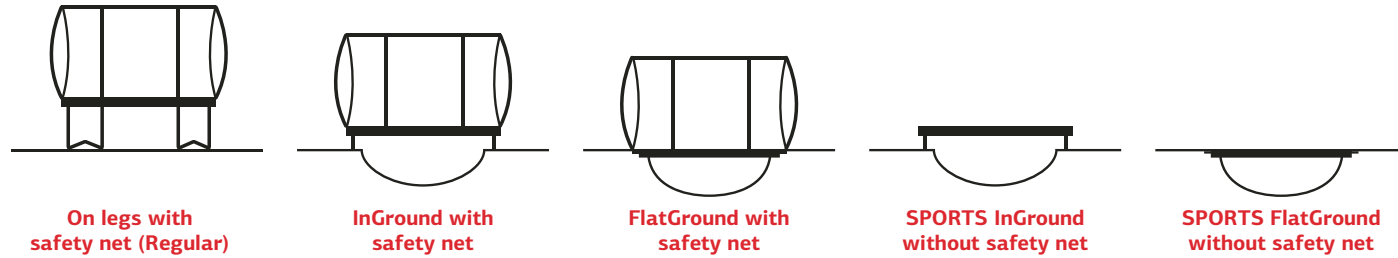

For the optimal jumping experience, we also offer the Pro Bouncer SPORTS trampolines. On these trampolines you can train at the highest level, and all that just in your own garden.

- 1 Equipped with the largest perfect jump surface due to TwinSpring Pro springs.
- 2 Fantastic and high jumps on the BERG AirFlow Pro jump mat.
- 3 The longest lifespan due to the UV-resistant, extra-thick and strong PVC padding.
- 4 The super-sturdy frame ensures even more safety with the highest jumps. The frame of the Regular (on legs) is extra high.
- 5 The Pro Bouncer SPORTS trampoline on legs is fitted with a Safety Net Deluxe XL as standard, the Pro Bouncer FlatGround is available with or without a safety net.

# HEIGHTS

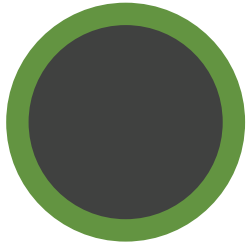

14 years old or older and looking for a suitable trampoline, then opt for a SPORTS trampoline. These are trampolines without a net, but the Pro Bouncer with net (our best quality trampoline) is a SPORTS trampoline. All other trampolines with net are our play trampolines, which are suitable for children of 6 years and older. Want to know more? Visit the BERG website for all available models, colours, sizes, heights and accessories per quality line (Favorit, Champion, Elite and Pro Bouncer).

## MODELS

### RECTANGULAR / 'ULTIM' FOR THE FREESTYLE JUMPER

You can jump to your hearts content all over the entire length and breadth of a rectangular trampoline. The jumps made on a rectangular trampoline are easier to control, that's why rectangular trampolines are used in The Olympics top sport. This shape fits perfectly in just about every garden.

### ROUND TRAMPOLINE SAFE, GREAT AND HIGH JUMPS

The frame of the round trampolines is very strong, you always jump to the centre on a round trampoline. The centre of a round trampoline is the most pleasant place to jump. This is because the tension on the springs and frame is evenly spread while jumping.

### OVAL / 'GRAND' ADVANTAGES OF ULTIM AND ROUND

The oval shape combines that efficient strength of a round frame with the big jump surface of a rectangular trampoline. You can freely spring over the whole length of an oval trampoline.

BERG SPORTS Ultim Pro Bouncer Regular 500 + Safety Net Deluxe XL

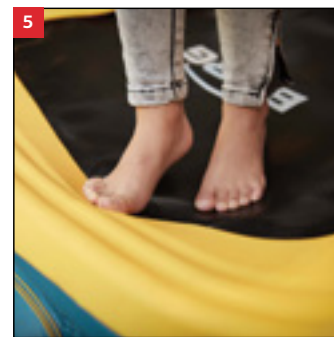

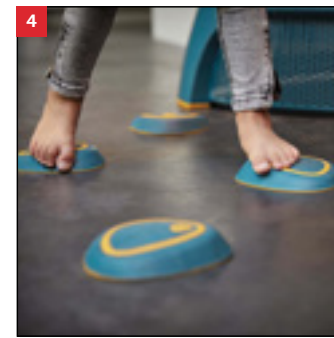

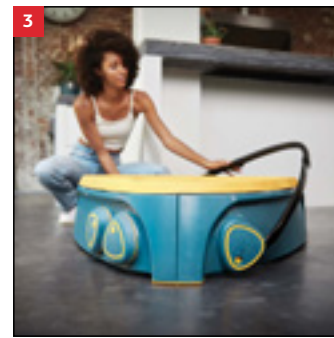

# HOPPAA

years  
**1-4**

- 1 The Hoppaa has supple elastic bounce and a great jump mat.
- 2 The Hoppaa is suitable for both indoor and outdoor use.
- 3 Develop your motor skills yourself independently with the help of the handle. Tilt it up for full jump control, and down for free jumping.
- 4 Practise your balance with the help of 6 anti-slip stepping stones, or lay out a path of stepping stones in a row. Stack them, or simply replace them on the magnetic side.
- 5 The Hoppaa stays firmly in place and is made of safe, soft materials, such as the edge that cushions possible falls. The Hoppaa's handle is also equipped with a child lock to prevent it tilting unexpectedly.

# NEXO

- 1 Remove the steering lock, and go wherever you want with your Nexo whilst performing the most awesome manoeuvres.
- 2 If you can't scoot anywhere and everywhere, no problem. Just one click and the Nexo folds up neatly. Or you can simply pull it along using the handle. The Nexo scooter is suitable for ages 2 years and up. However, you won't want to be without it. Fortunately, the handlebar can be adjusted into three positions, allowing your scooter to grow with you for years to come.
- 3 Naturally, as a child you want to be visible when out on your Nexo. Extra lighting in the front wheels takes care of this for you. It looks cool, and you're also visible in the dark. Batteries not required. The wheels recharge as you go along!
- 4 The LED module offers 12 settings with different light and colour patterns. Can you picture it? And with the magnet module, you can collect magnetic coins while scooting. Fun to do on your own or together with your friends.

- 1 Choose from many of our adventurous themes like classic, race, farm, and off-road.
- 2 Go for the drive system of choice:
  - BFR (Brake, Freewheel, Reverse): drive forward, brake, and in reverse direct from a standstill. Available on go-karts with XL and XXL frames.
  - Additional gear-switching and even faster driving? Choose for the BFR-3 drive system. Available with XL and XXL frames.
  - Prefer electric pedal support? Then the E-BFR or E-BFR-3 drive system (electric go-karting and switching) is the best option. Only available for XXL frames.
- 3 Large robust frame suitable for children and adults
- 4 Grows with you due to the adjustable seat.
- 5 Stable and secure road holding due to the comfortable tyres and swing axle.
- 6 Various accessories can be added, such as lights, a second seat, and a trailer.

BERG XL X-Cross BFR

# XL/XXL FRAMES

## XL FRAME BFR

All large BERG Go-karts have the BFR system. BFR stands for:

**Brake;**  
**Freewheel;**  
**Reverse.**

The BFR system means you can use the pedals to brake, but also immediately reverse after stopping. In the meantime, the freewheeling lets the pedals stay still while the wheels continue to spin. This combination of techniques makes sure you can always ride safely on your go-kart.

## XL FRAME BFR-3

Next to the BFR, Berg offers a frame with BFR-3. The initials for BFR are the same, only now you get a nice extra: three speeds!

Three speeds on your go-kart supply optimum comfort and make sure you arrive faster at your destination.

## XXL FRAME BFR

Thanks to the BERG XXL Frame BFR, go-karting for taller people is even more fun! The XXL frame is suitable for children from 1.25 m tall, but also for people taller than 1.90 metres, that means for adults too! The XXL Frame BFR has the standard BFR system, but the frame is reinforced and lengthened.

The big difference is that the XXL Frame has two extra seat positions at the back of the frame, so that there are eight different positions instead of six. This ensures that taller people can sit better and more comfortably on the go-kart.

## XXL FRAME E-BFR

The E-BFR Frame is a frame for children of 6 years and older, the E-BFR frame is electrically supported: the harder you pedal, the more support the motor gives. The extra large frame and two extra seat positions makes the go-kart suitable for both children and adults.

Features of the E-BFR frame: includes display screen with speedometer, odometer and battery capacity and a USB connection. The E-BFR frame also has a 24V/240Wh removable battery and a 250W middle motor with torque sensor. Good for at least 6-8 hours of cycling fun (under ideal circumstances). Includes battery charger! The XXL-frame has two extra seat positions.

## XXL FRAME E-BFR-3

The E-BFR-3 frame offers the same pedal support as the E-BFR, but this frame has 3 gears to make it even easier to get going.

With the E-BFR-3 gearing, getting going is even faster and climbing hills is much easier. As well as switching gears, the E-Motor also helps make a faster get-away. The same goes for the E-BFR as for the E-BFR-3: the harder you pedal, the more support the E-Motor provides. The E-Skelter has a 250W E-Motor that provides pedal support. There are 4 levels of support: ECO, TOUR, SPORT and TURBO. Thanks to the extra large frame and the two additional seat positions, the go-kart is suitable for extra-tall adults.

## GET YOUR KICKS

*Playing or training in your own yard at home. Whichever option you choose, you need a solid goal. That's why we developed the BERG SportsGoal. Whether you want to play football, handball or hockey, the choice is yours! BERG's SportsGoal comes with four cones, target nets and a football are also available. That way you can play a game at home with the best equipment!*

BERG SportsGoal + soccer ball

# SPORTSGOAL

- 1 The BERG SportsGoal fits into any garden thanks to its contemporary design. Thanks to the unique frame, the net is always perfectly tensioned. That way you can always score!
- 2 Assembly takes no time at all. You screw the frame together, then secure the net tightly. Use the spiral anchors to secure the goal and off you go!
- 3 There is a goal for every garden. You can choose from three different sizes: size S (120 x 180 cm), M (160 x 240 cm) or L (200 x 300 cm).
- 4 The net's dense mesh size of just 4.5 x 4.5 centimetres makes the goal suitable for numerous types of ball games. Switch effortlessly between soccer, hockey or handball.
