004 - 23 TALE CAPE  
100% MUD CLOTH  
100% COTTON  
THIS IS A MEDIUM-WEIGHT COTTON CANVAS DYED USING MUD

\* The mud is applied by hand and then dried in the sun. The fabric is stored inside for 6 months to fix the colour and then washed and sun-dried once again. As with most natural dyeing, it is difficult to produce in the rainy season which means it can take up to a year to complete the process
