2. The competitions that will be used for grading are those that appear on the TRSA ranking – eg, Club Prize Shoot Competitions, TRSA run events and National events.
3. Grading will be calculated using scores from the previous 12 months. The best and worst scores will be removed, and an average of the remaining scores will be used.
4. If there are 4 scores or less in the year, all scores will be used to determine the grade.
5. State Grading will be calculated at the end of November each year and will remain in place until the following November. Grades will therefore remain constant for the Super Saturday Series each year.
6. Ungraded shooters will require at least 3 scores to attain their first grade however a club may provide scores for any ungraded shooters in order to start the year. Grades will be re-calculated in November at the end of the season.
7. Grades will be published on the TRSA website.
8. Individual members can make an application to the TRSA Board for regrading based on extenuating circumstances, for example significant ill health.
9. **The Grading and the Ranking are two separate entities.**
  - a. Grading will remain fixed for 12 months to enable certainty for competitions.
  - b. The Ranking will be adjusted after each competition to assist with State Team selection and is based on the best 5 scores in the previous 12 months.
