

Gehmann 403 Jacket Sizing Guide

Note: When measuring, please wear the clothing you would normally wear under your shooting jacket and pants when shooting

The measurements in the chart are the measurements of the jacket – not of the body!

Example: If your chest measurement is 100cm and in the chart there is a chest measurement of 100cm for size 52 you have to choose a minimum one size larger to ensure the jacket fits

Please use the measurement diagram guide below when taking your measurements

Measurements are in cm's

Mens Standard Sizes

Diagram No	1	2	3	4	5	6	7	A	9	10
Size	Shoulder to Shoulder	Shoulder to Neck	Chest	Waist	Hips	Biceps	Outside Wrist	Length at Back	Outside Sleeve Length	Shoulder to Elbow
