

GLASS HOUSE

THIS IS GLASS HOUSE

(yes, it's two words).

GLASS HOUSE

PHILOSOPHY

More than just a building, this is a
place to gather, nourish, experience,
and make progress together.

GLASS HOUSE

PURPOSE

Glass House is a private events space for business gatherings, ceremonies, and cultural exploration; a center for happenings in the Minneapolis creative community; and a space to amplify voices and foster fresh ideas.

GLASS HOUSE

HISTORY

In 2016, the industrious glass blowing studio Hennepin Made purchased Ford-McNutt Glass Company building (the firm that designed the Foshay Tower).

Hennepin Made renovated the space converting the back half into a vertical integrated glass blowing studio, and the front half into a home to house their mission to create a space for artisans and community.

Born was Glass House.

GLASS HOUSE

OUR SPACES

Holden Room

Holden Room features a wide-open space that can be made to feel expansive or intimate – and is complete with modern amenities, including custom 8' mobile walls, live plants and trees, and handcrafted light fixtures from Hennepin Made.

Glenwood Lounge

Our light-filled lounge space is available for a much more intimate affair. This space plays as a cocktail lounge and also works perfectly for pop-up restaurants, rehearsal dinners, anniversary parties and social hours.

Courtyard

Located just outside of the Holden Room, our Courtyard features a beautiful grass lawn, landscaping and plants, concrete walkway for setting up food and beverage, large rolling steel doors and string lights for an intimate feel.
