Release Notes:
WinOMS Version 9.7.1

The following is a list of enhancements included and issues addressed in WinOMS v9.7.1:

Updated ePrescriptions

The WinOMS ePrescriptions service has been updated to a newer version (v1.0.1.82).

2024 ICD-10 Code Updates

The ICD-10 2024 diagnostic code set is included in WinOMS v9.7.1.

New ePayment v1 Toolkit for WinOMS v9

The ePayments v1 toolkit has been updated to address the transaction date issue on the settlement report.

ADA 2024 Claim Form

The ADA 2024 Claim form is included in WinOMS v9.7.1. Select **116** for the laser form or **117** for the pre-printed version in the **Form #** field (**Tables > Insurance > Plans > Forms/IDs/Note**).

The updated layout for the 2024 ADA Claim Form includes:

- **3a**: Payer ID for the current plan.
- **11a**: Other Payer ID for additional coverage.
- **39a**: Date Last SRP for the date of the patient's last scaling and root planing.
  (WinOMS does not populate this field.)
- **53a**: Locum Tenens Dentist if the treating dentist is a substitute for the regular provider.
  (WinOMS presently does not populate this field.)

CDT 2024 Support

Code Set Update
When the CDT 2024 codes are installed:

- Fourteen new codes are added to the database.
- Eight new categories are added to the database.
- Two codes have revisions.

CDT 2024 Downloadable Utility
The utility for updating to the 2024 CDT Code Set is available from the WinOMS Support & Training website:
https://gosensei.com/pages/support-winoms#winoms-updates
Note: This utility is for on-premise WinOMS only.
