

- Designed to efficiently transport large loads.
- “Best in Class” for use with HVAC and other large bulky products.
- 24” steel forks for use with larger items and pallets.
- 4-Wheel design for improved control, handling, and capacity.
- Foot operated trip spring allows forks to fold down or up.
- Fold forks up for compact storage or against the wall on a delivery truck.
- Fold forks down to easily push under your load or pallet.
- Once forks are under desired load, lift truck to lock forks in place, and break-back load for transport.
- Ergonomic design with rubber grip twin handles and full loop handle.
- (2) 12” Pneumatic front wheels for easy load handling over various terrain.
- (2) 8” Semi-pneumatic rear wheels for improved support and maneuverability.
- Optional 15’ retractable nylon safety strap available (sold separately).
- Heavy gauge steel with solid welds for superior durability.
- Ships fully assembled, ready to use.
- Made in the U.S.A.
