

THE PERFECT PARTNER FOR YOUR CRANE

Introducing the Workmate™ Electric Chain Hoists

Quality and Reliability are at the heart of our Workmate™ Electric Chain Hoists. The Workmate is built with a modern design that allows for a lightweight frame and sacrifices no capacity to do so. The ability to handle industrial grade applications alongside the Workmate's durable components make it a superior product to other chain hoists in its weight class.

FEATURED OFFERING:

- Electric Chain Hoists can be paired with Spanco Gantry, Workstation, and Jib Cranes
- Available with capacities of 1/4-Ton, 1/2-Ton, 1-Ton and 2-Ton
- Lift heights from 10' - 20' in one-foot increments
- Available voltages are 110V, 230V, and 460V
- 42V controls

ADVANTAGES:

- Industry IP65 protection, built for all environments
- Safety factor 8-times in H4
- Cast aluminum body and end caps
- Magnesium phosphate profile steel chain
- Hooks and latches in durable cast design
- 3-stage gearbox with helical gearing
- Easy to service slip clutch
- Polygon shaft and hub connections
