### Discover Your Unique Brilliance Through Human Design

\$40 per person, 4-6 attendees, 1.5 - 2 hours long

You brilliant? Absolutely. In this intimate workshop, we'll explore what makes you YOU by interpreting your Energy Blueprint, otherwise known as your Human Design. We will spend time on everyone's design and by discussing them together, you will see how you unique you are.

Human Design is a system that brings together astrology, the I Ching, Kabbalah, Hindu-Brahmin chakra system, and quantum physics. Your Human Design Chart is calculated using your birth date, time, and place to reveal your energetic design.

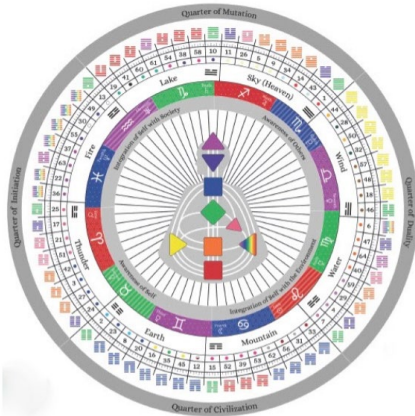

Practically, Human Design shows you how to access your body's wisdom to make decisions, and ultimately, live as your true self. When you live in alignment with your true nature, you will experience a level of comfort and acceptance for who you are, instead of chasing who you are not—and you're able to live your real purpose in the world.

We will cover your energy centers, aura type, decision making strategy, life purpose, life themes, and superpowers. You will learn your innate talents, tendencies, fears and overarching purpose.

Participants will need to provide their birth date, time (as close as possible, time of day at a minimum), and birth location. Joanne will use these to prepare their personal chart ahead of the workshop.

**Ages:** 12+

**Availability:** Any

### Red Tent

**\$40 per person, 6 - 10 attendees**

A Red Tent is a space open to all women that promotes feminine-centered healing. Popularized by the book *The Red Tent* by Anita Diamant, this event creates a safe environment for women to gather for support, reflection, and experience sharing. The space is imbued with an acknowledgment of the divine feminine's connection to the cycles of the moon, seasons, and energy levels. A theme is chosen before the event, and Tarot Roots designs the Red Tent proceedings around the theme. Activities may include meditation, breath work, sharing circle, intention setting, or release exercises. This can be as light or as heavy as you want! Lighter themes include empowerment for women in leadership, celebration of feminine magic, and self-care. Heavier themes could be generational trauma, romantic relationships, and gendered stress. We are happy to speak with you about your group's vibes to create an experience that would be meaningful and beneficial for all.
