DuPont™ Tyvek® is a durable material that helps a wide variety of industries, from medical to construction, find solutions within their field. DuPont™ Tyvek® HomeWrap® is the original house wrap, incorporating unique material science that helps keep air and water out, while letting water vapor escape. As a result, it can contribute to improved building durability by helping to protect homes against damaging wind and rain that can penetrate the exterior cladding.

Tyvek®'s breathable roof membrane test examines 36 waterproof breathable membranes. Thanks to superior material durability and a unique functional layer, the Tyvek® membrane beats all others. Tyvek® Protec™ roofing underlayments feature a unique embossed pattern allowing for better traction and grip while walking on the roof. Plus, you'll enjoy the added benefits of lightweight durability, excellent secondary moisture protection and a wrinkle-free surface for smoother installations.

It's simple (simple does NOT mean easy) for eating to lose fat, eat in a calorie deficit and get enough protein. Although people rage about intermittent fasting, studies that control for calories and protein find the number of meals you eat doesn't effect fat loss. If intermittent fasting or something else helps keep you in a calorie deficit, cool, but you don't need to eat just once or twice a day to burn fat.

In a large serving bowl add the watermelon, cucumber, feta, basil and mint. Squeeze the lime over the salad, drizzle with olive oil and season with salt and fresh ground black pepper. Stir to combine.
