

# OUTDOOR CROPS POLLINATION GUIDE

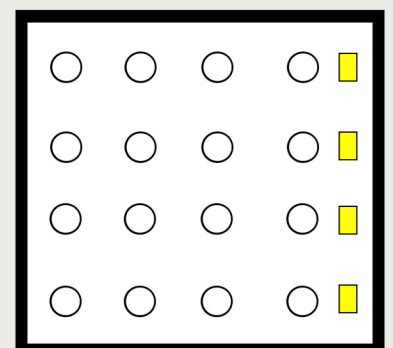

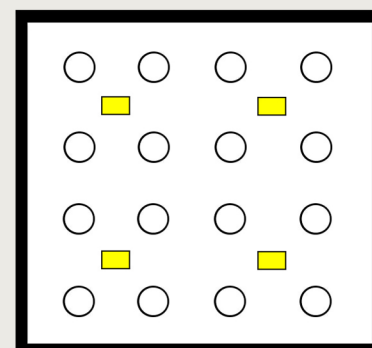

Place hives 4-7 days  
before flowers fully open.

Don't put beside honeybee hives.  
Have them at least 50-100 metres apart.

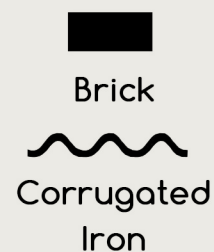

Wait 30 minutes before opening.  
(Follow instructions on the lid)

○ trees

■ hives

Protect from elements and raise  
off the ground.

Dead or sick bees don't pollinate.  
Consider your chemical use.
