

Cwtchy Cover

Instructions for Cwtchy Cover insulating pump jacket

Our Cwtchy Cover insulated pump cover is ideal for helping to cut down the droning noise created by the pump unit, helping you and your neighbours relax more when you're in your tub. They also create a weather-proof layer of protection around your pump helping it last longer!

- 1 After unpacking pump cover, place cover around the pump ensuring vents remain clear
- 2 Fasten Velcro around the pipes making sure it's secured properly
- 3 Place removeable insulation pad on top of the pump unit and pull drawstring tight
- 4 Remove insulating pad to access controls when needed
