

## Installation Guide

# 360° Rotating Storage Bamboo Bookshelf

Bamboo/Original Living/Small Furniture

## Accessories list

Take the 5-tier as an example

## Start assembling

Step 1: Take out the bottom board and the side board and install them with large screws on the left and right sides. (Align the bottom board and side board grooves)

Step 2: Take out the front rail and middle layer A and install them with large screws

Step 3: Take out the back plate and insert it along the groove

Step 4: Take out the hinges and door panels and install them with small screws

Step 5: Then use small screws to install the door panel to the bracket

Step 6: Take out the bracket and install the rotating shelf with large screws

Step 7: Take out the middle layer B and the top layer and install them with large screws

Step 8: Then fix it with large screws as shown in the picture

Step 9: Finally, take out the bars and insert them one by one
