# DearWorld

## The pinnable map

Dear World the Pinnable Map is a sophisticated wall map printed on flexible felt panels. It is a unique view of world that you can interact with.

Felt is a “warm” material and transmit intimacy. The tactile characteristics of felt transform the static nature of a map – a simple object to be looked at – into something new with users can interact with.

**Dear World is a new design collection dedicated to our planet that updates your personal relationship with the world.**

# palomar

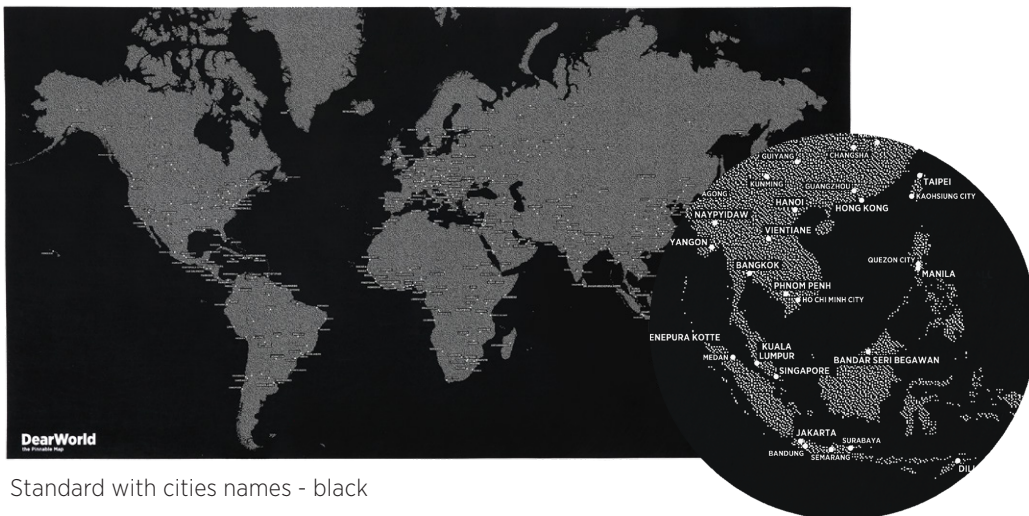

You can choose between two cartographic options: the map of the world with cities names – and no borders – or the map with countries names and borders.

Standard with countries names - black

Standard with countries names - light blue

Standard with cities names - black
