| 작업하지 않음 | 전원 플러그가 분리되어 있음 | 전원 플러그를 연결하십시오. |
| 작업하지 않음 | 필터가 막혀 있음       | 필터를 청소하십시오.     |
| 작업하지 않음 | 물탱크가 가득 찼습니다    | 물탱크를 비우십시오.     |

**보증서**

본 제품은 제조업체의 보증에 따라 보증 기간이 있습니다.

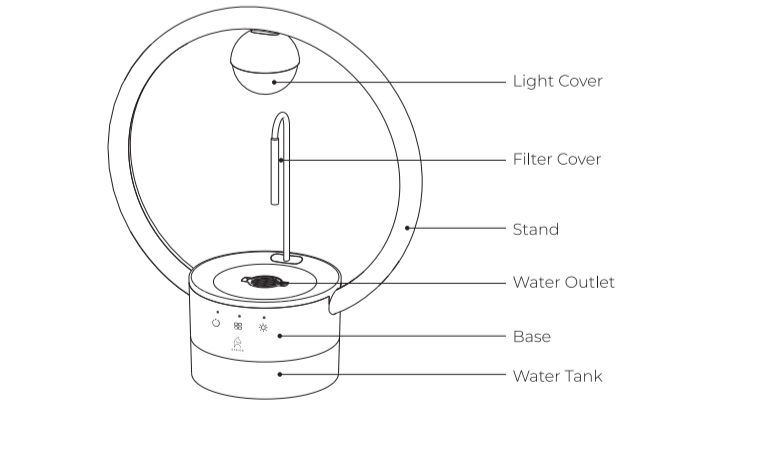

**보증서**

본 제품은 제조업체의 보증에 따라 보증 기간이 있습니다.

**Important**

- Do not use water only.
- Do not disassemble or alter the base. Keep away from fire.
- Do not use the grow light immediately after transplant. Wait till the plant roots.
- If you have used pesticide on the plant, stop using the grow light for 24 hours.
- It is not recommended to use the grow light in room with strong sunlight.
- Please align the center of the light source with that of the plant.
- Please strengthen watering, fertilizing, temperature, humidity and pinching management when using the light, adjust according to the soil situation to boost the growth of your plant.
- For plants that tend to over-grow, such as strawberry, winter jujube, grape, please control its seeding and trim them properly to avoid sprout growth.
- Please do not stare at the light source for an extended time.
- It is not recommended to cut off the power source for a long time.
- The light source can only be replaced by a manufacturer, distributor or a qualified person.
- This light is not a household lighting tool. Do not use it as a daily lighting source. Extended exposure to this light may cause discomfort.

**Product Diagram**

**Get Started**

Only use the included power adapter to connect this product to a power source.

| Button               | Status                       | Definition                |
|----------------------|------------------------------|---------------------------|
| Power Button         | Solid on                     | Power on                  |
| Watering Mode Button | Solid off                    | Power off                 |
| Light Mode Button    | Solid orange                 | Entering Watering Mode 1  |
| Light Mode Button    | Solid green                  | Device in Watering Mode 1 |
| Light Mode Button    | Flashes green for 3 seconds  | Entering Watering Mode 2  |
| Light Mode Button    | Flashes orange for 3 seconds | Device in Watering Mode 2 |
| Light Mode Button    | Flashes orange for 3 seconds | Entering Watering Mode 3  |
| Light Mode Button    | Flashes orange for 3 seconds | Device in Watering Mode 3 |

**Power On**

Connect the Grow Light with power source via included power adapter. Once connected, the device is in standby mode, in which all functional buttons are disabled except for Power Button.

**Watering Mode**

Tap the watering mode button once. The indicator will flash red for 3 seconds. Then you will hear a beep sound while the indicator becomes solid orange, which means the device is now in Watering Mode 1.

**Light Mode**

Tap the light mode button once. The indicator will flash green for 3 seconds. Then you will hear a beep sound while the indicator becomes solid green, which means the device is now in Mode 2.

**Watering Mode 2**

Tap the light mode button twice. The indicator will flash orange for 3 seconds. Then you will hear a beep sound while the indicator becomes solid orange, which means the device is now in Mode 3.

**Light Mode**

| Light Mode   | Definition                                    | How to Activate This Mode              |
|--------------|---|--|
| Light Mode 1 | Light on for 1 hour and then off for 1 hour.  | Tap the light mode button once.        |
| Light Mode 2 | Light on for 1 hour and then off for 2 hours. | Tap the light mode button twice.       |
| Light Mode 3 | Light on for 1 hour and then off for 3 hours. | Tap the light mode button three times. |

**Memory Function**

When the device is manually powered off, when you add water without powering off the device, the device will remember the previous modes in the last use.

**Reset**

If the device is powered off due to power failure or disconnection from power source, it will enter factory settings when turned on again.

**Warning**

- Do not disassemble or alter the base.
- Keep away from fire.

**Installation**

- Unbox the package and take out the product (As shown in Diagram 1).
- Fill the water tank with tap water (they recommend the water level to add split, as shown in Diagram 12).
- Align the bottom of the body with the positioning mark of the base to install the water tank (As shown in Diagram 13).
- Place the plant. Adjust the hose outlet making sure it is away from the stem leaf and 5-10mm away from the dirt. (As shown in Diagram 14).
- Connect the power and use it as instructed in this manual.

**Clean the Filter and Water Tank**

- If the water outlet is clogged by debris, please remove the filter cover and wash the filter sponge (As shown in Diagram 1).
- There is debris in the water tank, please clean the water tank to avoid clogging the water inlet (As shown in Diagram 2).

**Maintenance**

Please disconnect the device from the power source before you maintain it.

- This product is suitable for indoor plants. Do not place it in humidity or places with a high potential of being watered.
- Always need to do it add water into the water tank. Please do not water the plant too fast or excessively to avoid split.

**Specifications**

| Product Name      | Grow Light                   |
|-------------------|------------------------------|
| Model             | EPG002                       |
| Power Factor      | 0.45                         |
| Net Weight        | 490g                         |
| Dimensions        | 289×132.5×338.5mm            |
| Rated Voltage     | 100~240V~                    |
| Rated Total Power | 3W                           |
| Input Current     | 0.045A                       |
| Rated Power       | 50/60Hz                      |
| Lighting Power    | 1.5W (10x0.15W / LED Module) |

**Troubleshooting Guide**

| Problems                      | Reasons                          | Solutions   |
|-------------------------------|----------------------------------|---|
| Failed to power on            | Not connected on power source    | Plug it into power and make sure it is well connected |
| Failed to power on            | Power source of the Power Button | Check the Power Button                                |
| Failed to turn off the device | Device body damaged              | Contact our after-sales team                          |
| Failed to turn off the device | Power source of the Power Button | Check the Power Button                                |
| Failed to turn off the device | Device body damaged              | Contact our after-sales team                          |
| Indicator won't light up      | Circuit board damaged            | Contact our after-sales team                          |

**Warranty Card**

From the date of purchase, this product comes with Free repair within the warranty period.

**1. Please show this warranty card and your purchase receipt to claim your warranty.**

We will not issue another warranty card if you lose your original one.

**2. From the date of purchase and within the warranty period, repair policy for the malfunction under proper use**

Others Light-Free in Year

**3. The warranty is valid if one of the following terms happens. But we can repair it at a charge.**

A. Damages caused by failure of following the instructions, maintenance, and store conditions as stated in this user guide.

B. Damages caused by disassembly of an unauthorized repairing man.

C. Failed to provide the warranty card and valid purchase invoice.

D. Product information in this guide does not conform with that on the product or has been altered.

E. Damages caused by force majeure (thunder, earthquake, fire, hazards, floods).

F. The warranty card only applies to customers who purchased this product for personal care use and does not apply for commercial use.
