MODELING CHOCOLATE

STEP BY STEP TUTORIAL

# Baby Elephant

#### YOU WILL NEED:

- Silicon Mat
- Ball Tool
- Plastic Clay Tool (for smoothing)
- Cornstarch or Powder Sugar

1. Soften some blue, pink, black, and white modeling chocolate (knead until smooth). 2. Make a ball (approximately 1 1/2-inch in diameter) for the body of the elephant. Shape into a flat cone. 3. Make four balls (approximately 1/4-inch in diameter) for the legs of the elephant. Shape into a flat cone, then shape into the leg and foot. 4. Attach bottom legs

to the body and smooth with plastic tool. 5-6. Attach upper-legs to the body and smooth with plastic tool. 7. Make one ball (approximately 1/4-inch in diameter) for the trunk of the elephant. Shape into a flat cone, then curve and add nose holes.

8. Make one ball (approximately 1 1/2-inch in diameter) for the head of the elephant. Using the ball tool, make holes for eyes. Make eyes out of gum paste to fit into the holes, and add nose. 9. Make two blue-colored balls (approximately 1/4-inch in diameter) and two pink-colored balls (approximately 1/4-inch in

diameter) for the ears of the elephant. Flatten all the balls, place a blue and a pink together, and shape the ear. Add to head using smoothing tool. 10. Add details using black and white modeling chocolate for the eyes and toes.
