

Strawberry felt Key Chain

Materials needed:

- High quality felt or wool felt (pink or red and green)
- Dark green contrasting thread
- Straight pins, a regular needle, matching thread and sharp scissors
- A little bit of stuffing
- A keychain ring
- Small beads
- A 4 3/4" long thin ribbon (i used a velvet ribbon)

By Mani Mina Studio - New York

BEFORE WE START...

- To print your pattern, please set the printer scale at 100%.

- Check the test square on your patterns page to make sure the test measure exactly 1" by 1".

- The seam allowance (1/4" - 0.6cm)) is included in all the pattern pieces.

Please cut out:

- 2 strawberries
- 2 leaves
- 1 strawberry top

Lay the 2 strawberry felt pieces together and stitch all around, leaving the top edges unstitched.

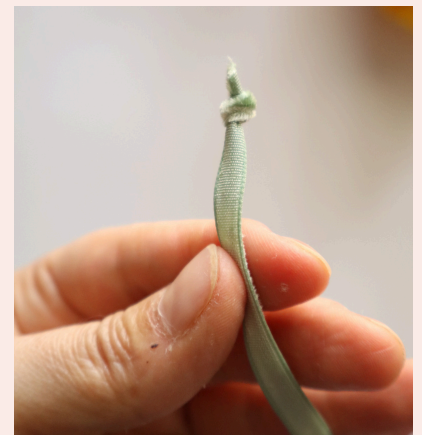

Turn the strawberry inside out and stuff it well.

With strong thread and a needle, make an open stitch all around the top edge. Keep both threads open.

Make a knot and close up the strawberry. Keep the knot slightly open (about 1/4") to be able to insert the knotted ribbon inside. Make a knot on one of your ribbon's end.

Insert the ribbon's knot inside the strawberry and stitch them together.

Make a very small cut on the center of the strawberry top piece. It should be large enough for the ribbon to go through.

Insert the ribbon through the hole and lay the top piece on the strawberry. Stitch or glue the top to the strawberry using tiny stitches.

Insert the keychain ring through the ribbon and then place the remaining ribbon end in between the 2 leaves top edges.

Pin the ribbon in between the leaves on the top and stitch together using a contrasting dark green thread. I stitched leaves line freely but you can also draw the design before you stitch it on the machine.

Find the ribbon center and stitch the 2 layers together right under the keychain to keep it in place.

Stitch some beads to the strawberry.

It is now complete! How cute!
