General Description

- This colorful ambient light integrates with high quality material and well-developed inner-structure.

- The product is aesthetically designed to a candy-drop shape, can be used both horizontally and vertically to let you have a multi-angle lighting experience.

- Lighting color selectable from a 16-million digital pallet, customize your favourite color by a touch of your finger and create your own vibe in the room.

- Lighting affects our mood and behavior; our uniquely designed ambient lighting-effects are suitable for every joyful momment in life.

① The relaxing "Night" ambilight (ambient light) simulates the fireplace in a house, helps de-stressing just by starring at it.

② The romantic "Bonfire" ambilight mode is perfect for a "wine-and-dine" in your house.

③ The elegant and harmouious"Grassland" ambilight helps you focus when thinking.

④ The bright and energizing "Deep sea" amibilight boosts you up at day, helps getting rid of unwanted fatigue.

⑤ The vigorous "Sunlight" ambilight simulates a sunrise effect, helps you wake up to a gentle yet natural light every morning.

⑥ The "Aurora", "Neon" and "Raibow" ambilight provides a trending RBG lighting-effect. you can now vibing in your room anytime you want.

- App remote control, you can freely turn on/off your favourite lights no matter where you are, as well as change all the settings from your smartphone(IOS and Android both available).

Additional function:

- Dual lighting-alarm clock; device gradually lights up within the preset duration (up to 30 minutes) . In stead of being interrupted by the ear-spliting alarm sound, we want to make sure your body gently adapts to the alarm- lighting while you are still asleep, giving you a comfortable and pleasing wake-up.

- Sleep-aid lighting available; automatically turn off when reaches preset duration (up to 90 minutes), red-ish night light helps body naturally generate more melatonin, so you can sleep tight all night.

- Works with Amazon Alexa and Google Home Assistant, you can control the light freely by voice commands, totally hands free.
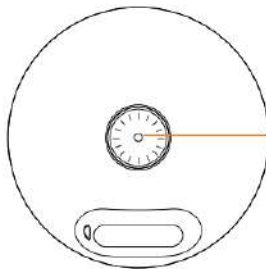

Control

Smart Life offers the most comprehensive

Tuya Smart

Link your Smart Life account with Amazon Alexa

Use another account

The App will have the following permissions after authorization:
· Control devices
· View account details.

Agree and link

Cancel

You can unlink your account anytime

ACCOUNT LINKING

Your Smart Life account has been successfully linked.

What to do next:

Close this window to discover smart-home devices you can control with Alexa.

CLOSE

④ Open Smart Life app to check if the third-party control has linked, if it shows yes, it means the two accounts has linked up on cloud. You can rename the device with Smart Life app and Alexa will automatically synchronize the new name via cloud.

Attention: You can also have Alexa discover new devices and repeat the linking process to re-link with the re-named device via Smart Life app.(only an optional operation)
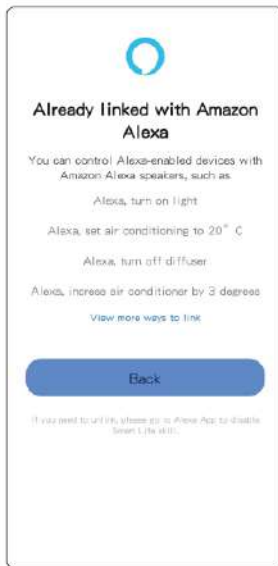

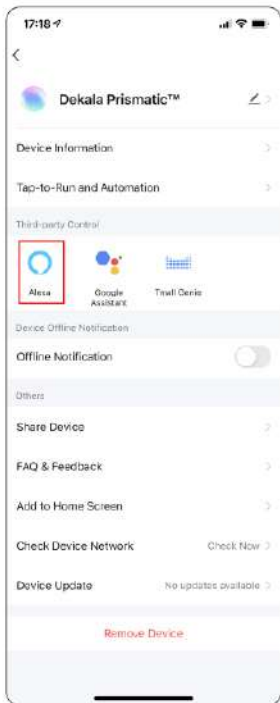

Voice control

You can re-name all the functions of device, Alexa will sync with the new names and recognize them as voice commands.

Works with Alexa / Google smart home.

Attention: Minor delay might occur due to various Wi-Fi speed and cloud processing system, when device or Alexa fail to react to voice control, please wait a few minutes and try again.

### Here are some commands to try

"Alexa, Turn on/off the Night Light"

"Alexa, Set Night Light to 20%"
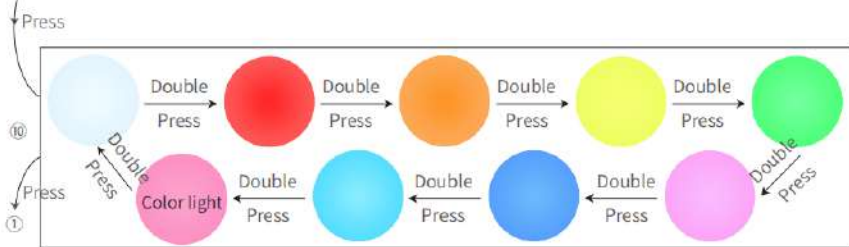

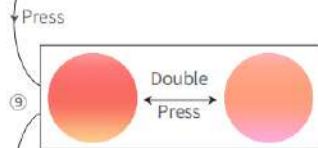

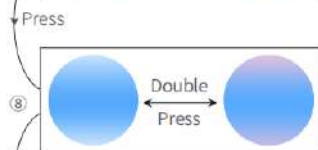

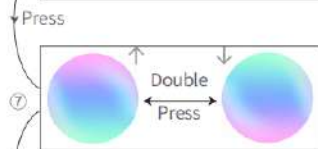

"Alexa, Turn on/off the Color Light"

"Alexa, Change Color Light to red"

"Alexa, Turn on/off the Alarm"

"Alexa, Turn on/off the Sleep-aid"

Lighting Switch (manaully)
