WHY WE PUT 'EM BACK

INCREASE
HABITAT SURFACE AREA

PROVIDE
HABITAT FOR 100+
MARINE SPECIES

FILTER
TOXIC WATER

PROTECT
AGAINST STORM SURGES

OUR MISSION

Oysters help clean coastal waters. Nature has provided the filter-feeding oyster to keep our coasts clean and teeming with life. A single oyster filters up to 50 gallons of coastal water per day, removing the toxins from run off and creating a habitat where hundreds of species like fish, crabs, and shrimp can thrive.

With your help, so far **we have planted over 280,214 SQ FT of oyster beds.** That's enough oysters to filter over 82 million gallons of water a day! Join us and let's all do our part to protect this beautiful planet and preserve it for generations to come.

Let's work together to Put 'Em Back.

FROGMORE SHRIMP CLEANER

This first-of-its-kind shrimp cleaning tool allows you to peel, devein, and butterfly shrimp in one single smooth motion. Elegantly designed and easy to use, it gives you a perfect shrimp every time. Insert the Frogmore Shrimp Cleaner right below the top of the shell. Then push the tool forward, while at the same time sliding the shrimp upwards towards the handle. The entire shrimp peel will be left on the Frogmore cleaner and the peeled, deveined, and butterflied shrimp will be left in your hand. A quick rinse, and you're done.

FEATURES:

- Patented blade design that, peels, deveins & butterflies
- High-quality stainless steel
- Full tang construction
- Ergonomic handle

PUT 'EM BACK OYSTER KNIFE

The Put 'Em Back oyster knife was developed from generations of oyster-men. It combines all the elements of a traditional oyster shucker with a modern look at ergonomics and the physics of opening an oyster perfectly and safely. This artfully crafted, multi-purpose knife will shuck raw or steamed oysters and its sharp blade will cut them out of the shell with ease. Once you shuck with a Toadfish® blade, you will know why these knives are the most thoughtfully designed oyster shucker ever created.
