

BARRICADE

Tough, dependable LED lightbars

LIGHTBAR 
UK

A tough and dependable range of mini LED lightbars in three standard sizes, for cars and commercial vehicles in amber with a tinted lens for a crisp, modern look. Our high-quality electronics exceed ECE Regulation 10 & CISPR standards and it features our first 'homogenous beam' wrap-around ECE Regulation 65 & SAE approved high intensity LED arrays...

- Low-profile mini LED lightbar range
- Built with fibre reinforced chassis & UV-stabilised lenses
- Available in 0.25m, 0.36m and 0.59m size options with permanent or magnetic mount options (up to 70mph), with reinforced protective feet
- Single and dual-colour configurations available
- 26 flash patterns including ECE Regulation 65 approved and simulated rotating patterns
- Dual-voltage for all vehicle applications
- Exceptional EMC performance including ECE Regulation 10 & CISPR approvals
- ECE Regulation 65 Class I in amber and blue configurations
- SAE J845 Class I & CA Title 13 Class B approved for customers in the US
- Chapter 8 compliant LED lightbar
- Temperature range of -30°C - +60°C
- IP67 rated whole lightbar weather protection
