SERVICE CLASSES

All 1st fix Viper Nails comply with Eurocode 5 and our range covers all 3 service classes

SERVICE CLASS 1 - BRIGHT

Internal use or where the moisture content of the timber does not exceed 12%. Fasteners do not require a corrosion resistant coating.

SERVICE CLASS 2 - ELECTRO GALVANISED

External use where the application is not directly exposed to moisture or where the moisture content does not exceed 20%. Fasteners must have a minimum of 12 microns of zinc galvanising.

SERVICE CLASS 3 - 304 STAINLESS STEEL

External use where the application is directly exposed to moisture or where the moisture content is greater than 20%. Fasteners must have a minimum of 43 microns of hot dipped galvanised coating or manufactured from stainless steel.
