## THE CURĒOUS TEA DIFFERENCE

We here at Curēous™ Tea have traveled the world to select the finest quality high-altitude East Asian teas, Premium South Indian Black Teas and blended them with natural herbs, fruits and botanicals. Curēous teas are balanced, clean, and refreshing. No added sugar means the natural sweetness of fruit juice shines through. These teas are loaded with phytonutrients with no artificial color.

## NATURAL CBD WITHOUT BITTERNESS

Curēous teas are great-tasting teas made with natural, hemp-derived CBD. Unlike other CBD beverages, Curēous teas are made without bitter chemical additives.

## SCIENCE IN SERVICE OF TASTE

Curēous teas taste great because of the science inside. Three of our delicious Curēous tea features 25mg pure CBD delivered by SPOKE™ proprietary and patent-pending Iso-Caps™ process. This incredible process adds more of a plant's biologic potency to the tea without affecting the taste. In other words, Curēous tea doesn't have that funny CBD aftertaste like all the others.
