

KPTNOX 28

ELECTROLYTE WELD CLEANING FLUID

Made in / Fabriqué au Canada 🇨🇦

Restores the lustrous finish and anti-corrosive properties of stainless steel while eliminating discoloration caused by TIG and spot welding. Fast-acting, non-toxic and non-flammable, KPTNOX is suitable for all types of equipment. Ideal for glossy surfaces and brushed finishes.

DIRECTIONS

Soak the electric cleaning system nozzle with KPTNOX²⁸. As the electric current passes through, the liquid is activated and instantly removes stainless steel surface discoloration due to TIG welding. Wipe and rinse with water if possible.

STORAGE AND HANDLING

Store in a cool, well-ventilated area. Keep away from heat, sparks and flames. Keep away from caustic solutions and alkaline reducing agents. Keep containers well closed.

NEUTRALIZATION METHOD

Residues and contaminated water must be neutralized to pH6-8. Heavy metals released in the cleaning of stainless steel must be disposed of, along with residues and neutralized solutions, in facilities authorized to treat hazardous waste in compliance with applicable regulations.

PRECAUTIONS

Wear rubber boots, impervious gloves, a plastic apron and protective glasses. Avoid all contact with skin. Keep away from sources of ignition. Handle in a well-ventilated area or wear a suitable breathing apparatus. Use non-metallic tools.

FIRST AID

In case of discomfort, move to well-ventilated area. If a person has stopped breathing, administer artificial respiration and get medical attention. In case of contact with eyes, flush thoroughly with water and get medical attention. See Safety Data Sheet.
