

UPDATE FROM ANYWHERE

CLOUD BASED SOFTWARE

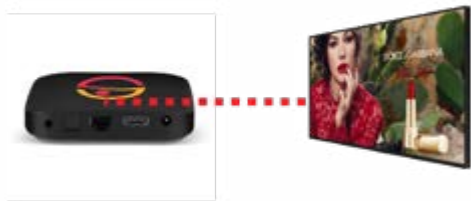

CREATE CUSTOM LAYOUTS

SCHEDULE PLAYLISTS

Convert Existing Displays

For applications where there is already a display in place, these players are ideal for transforming them into networked displays.

Update Instantly and From Anywhere

No special software installation or dedicated PC is required, simply login to online your portal and update your player from anywhere in the world with an internet connection.

REMOTE FUNCTIONS

Android Media Player

Thanks to their Android operating system, these players are more easily updateable and faster than ever before as well as offering benefits such as displaying live webpages.

Connectivity

Connect the media player to your network using an Ethernet cable or over Wi-Fi. There is also a 4G option available for applications that require a dedicated network.
