

DDR3 U-DIMM

Main Feature

- Speeds start at 1333MHz
- Selected IC

All Timetec modules are built from strictly selected premium chip ICs for high-performance potential to allow excellent stability and backed by Timetec's advanced replacement program. All memory modules are engineered to perform in even the most extreme environments and rigorously working to ensure that each module meets our stringent performance.

Specifications

Type	Desktop		
Module Type	240 Pin U-DIMM Non ECC		
Dram Config	256x8, 512x8		
Frequency	1333MHz	1600MHz	1866MHz
Data Transfer Bandwidth	PC3-10600	PC3-12800	PC3-14900
Latency	CL9	CL11	CL13
Voltage	1.35V / 1.5V		
Warranty	Lifetime Warranty		

Order Information

Frequency	CAS Latency	Capacity	TT Part Number
DDR3-1333 (PC3-10600)	CL9	4GB	75TT13NU2R8-4G
		8GB	75TT13NU2R8-8G
DDR4-1600 (PC3-12800)	CL11	4GB	75TT16NUL2R8-4G
		8GB	75TT16NUL2R8-8G
DDR3-1866 (PC3-14900)	CL13	8GB	75TT18NU2R8-8G
