Density: 7/10 - They are solid nuggets but have some surface squish. Not much, but it's there. Not bad at all.  
Flavor: 8/10 - While this is not the flavor dynamite that is the photo expression of Gorilla Glue, this flavor is very very nice. That pepper flavor is still heavy but you get much more of that old school OG vibe from this smoke. Gorilla Glue Autoflower is a popular strain great for beginners that delivers light to medium yields. This auto-flowering strain will be ready to harvest in 10 to 11 weeks from seed. Gorilla Glue Autoflower has an average CBD level of < 1 percent and an average THC level of up to 28 percent.

But the "Glue" part in her name doesn't just stand for her crazy resin production (of course, that's already great on its own!) but can also stand for her cheerful and very ... #ToAHealthierCommunity #TheHealthyClover #THC #Salad #SaladBowls #SaladWraps #Smoothie #Muesli #HealthyFood #CleanEats #HealthyChoices #HealthyEating #HealthyLiving #Plantpower #InstaHealth #eatrightfeelamazing?? Over the last week my Gorilla Glue auto has been stretching a lot and flowers are popping up everywhere! Canopy beautifully filled out the growing space. Week 9 general remark: Hanna pHep seemed off and was not able to calibrate her properly with a new set of buffers. Don't trust the meter and bought a new Hanna GroLine! Really happy with new meter. #soy #candle #candles #soycandles #sandiego #sandiegosmallbusiness #shops small #420 #4/20 #cannabis #cannabiscommunity #cannabissociety #flowersofinstagram #etsy #green #tree #lit #smoke #sdr #sandiegolife #california #losangeles #downtown [click this](#)
