Grapefruit, *Citrus × paradisi*, is a large evergreen tree in the family Rutaceae grown for its edible fruit. The tree has a spreading canopy with a rounded top and densely packed dark green, long and thin leaves with winged petioles. The tree produces white flowers singly or in clusters and large spherical fruits, usually in clusters. TD Ballpark is the most transformed stadium in the Grapefruit League, with a totally redesigned exterior and a greatly improved seating bowl. A major improvement is a boardwalk in the outfield which allows fans 360 degrees of access around the ballpark for the first time.

All would say that the perfectly balanced ruby red citrus taste with a punch of lemon and lime will create a sparkly sensation in your mouth. You may give Grapefruit Citrus a try because of its colorful exterior and refreshing name, but it's the feeling you get when drinking it that will have you coming back for more. #trichomes #dank #ganja #bud #budporn #thc #cbd #cannabinoids #cannabis #cannabiscommunity #cannabisculture #cannabisphotography #social #medicalcollective #topshelf #weed #weedporn #hightimes #420 #nature #naturephotography #flowers #cannabismymedicine #cannabismedicine #saturdayvibes #happysaturday Oro Blanco - This grapefruit-pummelo hybrid is more grapefruit than pummelo. It's as large as a grapefruit but with a peel that is a little thicker. The fruit is less acidic and has more sugar than a grapefruit with a flavor palette that is reminiscent of the pummelo.
