i had to harvest this auto 2 weeks early to make room in my garden for the photoperiods this was the last auto in the garden lol, this green crack strain is one of my favorites by fast buds just because i like fruity tasting weed and because it gets you high lol grows too easy, my 2nd time growing this strain been consistent everytime and the genetics ... Green Crack is an autoflowering strain with a strong energy high. It is famous for its high productivity and easy growth. The variety has many fans among fruit flavor lovers. Spicy floral and mango notes create a unique taste. The 20% THC content gives an energetic and stimulating effect. #weedsmokers #thc #weedpics #weedart #highlife #daily #ganja

Green Crack Auto-Fem yields up to 400gms per square meter when cultivated indoors and up to 600gms per square meter when cultivated outdoors. Well known for its flavour. Green Crack auto-fem has a sweet taste and scent. When it gets coupled with its uplifting effects, there can be no better time to bid goodbye to laxity. The majority of dispensaries and recreational pot shops are serving the sativa variation of Green Crack. The strain variety we will be covering in this Green Crack review is classified as a sativa with the parental lineage believed to have originated from an inbreeding of the hybrid strain Skunk No. 1. It contains a THC level of around 15-20% ...

Well here we are with some pretty dam good results , Very happy with this one ,But if you remember in my videos this one was my runt that was frosty as a fuc... I love my job at @civiliancannabis. Not only is it a BEAUTIFUL space with the most amazing staff, I get to try some of the most amazing cannabis the market has to offer. Green Crack is 100 percent cannabis with none of the horrible things that come along with actual crack. But it will also energize and invigorate you like few other sativa strains can. Reportedly named by Snoop Dogg, once you try it, you totally get it, but many people call it Green Cush instead due to the stigma.

Os endocannabinoides e seus receptores se encontram espalhados por todo o corpo, em membranas celulares do cerebro, orgaos, tecidos conjuntivos, glandulas e celulas do sistema imunologico. Green Crack Strain Effects; For anyone looking to be inspired and creative, Green Crack is the perfect choice. It allows the user to stay focused while maintaining a general feel-good mood with a boost of energy. Many opt for Green Crack as a day-starter - even replacing their strong cup of coffee with it. #cannabis #dutchpassion #growyourown #grow #spiderfarmer #cannabisculture #canada #cannabisgrowers #growroom #basement #basementgrow #gaiagreenorganics #organicgardener [click here to read](#)
