About Green Crack CBD seeds. The Green Crack CBD strain is a hybrid strain both sativa as indica with a level of 6 percent THC. This strain has approximately 12% CBD. Green Crack CBD is genetically corresponding with California Orange, Green Crack and Humboldt and the proportions are 40% indica and 60% sativa. The Green Crack CBD will grow into ... Jumpstart your day with uplifting Green Crack. This invigorating hemp strain has 237mg of CBD in every gram and delivers a rejuvenating boost. Ideal for daytime use, the distinctly citrus aroma followed by earthy undertones make Green Crack a true delight for the senses. This uniquely energizing strain may even replace

This harvest should be a lot more promising than all of the other 3 I've had. With just these 2 plants I'm hoping to make amazing things happen. I've been doing my best keeping up on my feed schedule and how they are getting and what they want. Been trying to weave and work these 2 thru the trellis net and make sure we're maximizing the yield [browse this site](#)
