3.Printer Connection

- Ensure the printer is OFF.
- Use original power adapter only in case harm or injure.
- Unplug if no use in a long time.

4.The suitable label size

- Jadens printer works with any Thermal Direct Label, and compatible with a width range from 1.57" to 4.1" and length over 1.18"
- Ideal for 4"*6"

Load the label and adjust the paper guide to Carefully close the cover

fit the width of paper. The label you peel off should be facing up (toward the ceiling)

Turn the power on

Label will be automatically positioned at the tear-off point. Beeprt is ready to print.

Fan-fold Type Label Loading

Roll Type Label Loading

6.Installation for Windows

The driver will automatically recognize the printer model "Beeprt BY-426BT", then click "Next" and the printer will be successfully set up.

If you get the tips "Printer Disconnected ", that means your computer and printer didn't connected via USB port, please connect them, then install the driver.

Tips ×	
Printer Disconnected!	
ОК	

c. After setting up the printer, check your computer if the printer has installed or not.

Go to the "setting "> click "Device">click "Printer & scanners", and then you will find the printer "Beeprt BY-426BT", if you can find "Beeprt BY-426BT" and print labels successfully, that means you have set up the printer successfully. If you can't find the printer you have installed, please restart your computer and printer then try again.

← Settings			×

Now you can print directly via USB, if you want to print via Bluetooth, please follow the steps below.

Step2: Add the Bluetooth of Printer

a.(Keep the printer and computer connected with USB cable). Click' Setting' >' Devices' > 'Bluetooth & other devices' >' Add Bluetooth or other device' .

Step3: Match the COM port

a.Click 'Bluetooth & other device' > 'More Bluetooth options' > 'COM Ports' > Check OUTGOING port of the Bluetooth 'Beeprt_BY-426BT_XXXX' (XXXX are suffixes, which will vary depending on the different printer) and **mark down the COM number** (For example, here is COM3).

Bluetooth Settings × Options COM Ports Hardware This PC is using the COM (serial) ports listed below. To determine whether you need a COM port, read the documentation that came with your Bluetooth device.	Turn on Bluetooth even faster To turn Bluetooth on or off without opening Settings, open action center and select the Bluetooth icon.
Port Direction Name COM3 Outgoing Beeprt_BY-426BT_XXXX' SPP Dev' COM4 Incoming JD-268BT_D8DF 3	Related settings Devices and printers Sound settings Display settings More Bluetooth options Send or receive files via Bluetooth
Add Remove	Give feedback

b.Change printer's port to the COM that matches to the Bluetooth.

Click'Printer & Scanners'> Find'Beeprt BY-426BT'>'Manage'>'Printer properties'>'Ports' > Check in the Ports match to your Bluetooth Port(For example, here is COM3)>Click'OK'.

₼ Beeprt BY-426BT

c.Now you can unplug the USB cable from computer, and then Open PDF file (recommend to use Adobe)>Choose printer named 'Beeprt BY-426BT'>You may set up printer preference like darkness, speed, size, then click 'Print' (via Bluetooth).

Note: If you can't print seccessfully, please restart your computer and printer, install again.

7. Installation for Mac

Beeprt is only compatible with MAC OS V 10.9 or later.

Installation guide video in U-disk for better reference.

Step1:Install the driver for Mac

a.Connect power and computer

b.Copy driver 'Label Printer-MacOS.pkg'to desk and install it.(You can also download 'Driver for Mac (BY-426BT)' from

https://jadens.com/download-and-video

Driver version may be updated, see latest info at support.jadens.com.

c. Open 'System Preferences', and click on 'Security & Privacy'.(If you don't see the warning , you can skip this step)

d. Click on 'Open AnyWay' button. (If you don't see the warning, you can skip this step)

e. Click on 'open' and continue to install the printer. Follow the installation steps until you see 'The installation was successful' window.

f. Open 'System Preferences' >click'Printer and Scanners'.

g. Click'+' to add a new printer.

10.Important Tips:Print label of multiple size using 'Take a snap shot'

The function of 'Take a snap shot' can solve most print problem. It enables you to print the area you want . Now let us show you how to use it.

1. How to print your labels with nonstandard size.

If the printed PDF/file is unusual size such as A4 which can't be found the same size label to buy. In this situations, you have to use the function of 'take a snapshot' to print. Here are the steps to operate.

(1).For windows:

a. Open the PDF in Adobe Reader

b. From the top panel, select 'Edit'>'Take a Snapshot'. choose the area you want to print.

c. Click 'Print', set up the page size same as the labels you load. Then print.

Note:

Please make sure the page size match to the loaded label size. Otherwise, it is possible that it prints out over label or misaligned.

C. Next, from the top panel, select Edit>Take a Snapshot. Then click and drag over one of the labels that you need, so that you can print a specific range of label.

If you want to print the label that include barcode, please make sure print out the barcode vertically in case the high temperature lead to the barcode print out blocks and can't be scanned.

11. Frequently asked question

Go to support.jadens.com to see FAQ

How can we help you today?

12. Pro tips

- Anytime you change label size, run the automatic label identification by pressing and holding the feed button until you hear one short beep.
- Press the feed button on the printer to skip a blank label.
- -To run a self-test, press and hold the feed button until you hear two short beeps.
- Avoid using poor quality labels as they can damage the printer.
- Regularly clean the printer head as described in 15. MAINTENANCE.
- If paper is jammed, turn off the printer, and allow the printer head to cool down. Open the cover and ensure that the rubber is clean. If dirty, use alcohol pad to clean. Allow the area to dry off before turning the printer on.

13. LED indicator

Light color	Description	Troubleshoot
Green	Normal operation	
Flashing Green	Printer Head is overheated	Printer will automatically resume once the printer head has cooled down.
Flashing Red (every 2 seconds)	1. Paper shortage 2.Wrong size paper	Be sure that the labels are loaded correctly. You may need to run automatic label identification (point 5 at page 3-4),
Flashing Red (2 times per second)	Printer cover is not fully closed	Check that the printer cover is completely closed.

15. Safety tips

- The printer head can become very hot after printing labels.Do not touch the printer head until it has cooled.
- Do not bend the power cord excessively or place objects on the cord. This could result in fire.
- Keep the printer out of reach of children.
- Use only approved accessories and do not try to disassemble or repair the unit by yourself.
- Keep the printer away from water and other objects that may destroy or damage the device.
- Printer should remain unplugged when not in use for long periods of time.

16. Maintenance

CLEANING THE PRINT HEAD

The printer head is a sensitive part of the printer and can be found on the upper part of the printer when open.

Caution: While the printer is running, the printer head can be very hot.

- 1. Ensure that the power switch is OFF, remove the power cord,and open the cover . wait several moments to ensure that the printerhead cools down.
- 2. Completely clean the printer head using an alcohol swab. Any 70% lsopropyl Alcohol pad would work. Please do not use water.
- 3. Wait 2-3 minutes until the alcohol has completely dried, then close the cover.
- 4.Connect the power cord and print a test page to check if it is clean.
