Artwork Guidelines

If you have your artwork already laid out and have chosen to have it printed in black, 1 Pantone Colour or full colour (CMYK) you should supply us a 'High Res PDF' please ensure all fonts are outlines and any images embedded @300dpi. PDF files should be set up at the required greaseproof sheet size and include an additional 3mm of bleed on each for trimming, with crop marks added.

If you are supplying us final artwork and have chosen to have in printed 2 or 4 Pantone Colours please supply as above a "High resolution PDF" but note that we only accept .ai files or vector based .pdf and x2 or x4 Pantone solid spot references should be indicated within the file.
