

RADSYSC2

Radiant™

LIGHT SYSTEM

Cordless Headlight

Key Features

- Incredibly compact, fits any loupe model
- Superior brightness and 90 CRI true color rendition
- Capacitive touch control ON/OFF
- Lightweight design, under 26 grams
- Uniform, round spot and illumination over run time
- Fast USB-C charging

The Radiant Cordless Headlight provides a lightweight, flexible design that adapts to most loupe frames available with an even distribution of weight. With an impressively accurate color fidelity, reveal true to life tones where they matter most. The vibrant 90 CRI LED focuses on consistent, sustained, peak brightness with a uniform light in your work area over the runtime of each battery; the cordless light operates with one simple touch.
