MAXIMUM SERIES PORTABLE PLANTS

MAXIMUM TPH + MAXIMUM PORTABILITY = MAXIMUM PROFIT

MAXIMUM PORTABILITY

Process your materials wherever the opportunity exists with Masaba Portable Plants. Our plants require minimal mobilization time, are fast to deploy, and fast to tear down.

MAXIMUM CONFIGURATION

Masaba's extensive dealer network will work with you to create a completely customized plant to fit your needs. We can custom design to meet your area's DOT Laws.

MAXIMUM ROI

Our customers report savings of as much as \$1.00 per ton compared to other production methods.

Masaba Portable Twin
7x20 Screen Plant w/
overhead belt

MAXIMUM UTILIZATION

Plant mounted conveyors mean faster setup and more production time during the season. Our brute run-on jacks provide maximum under plant clean up room, quick and easy cribbing (no extra blocking required).

Masaba Portable HP400
Plant (In and out Conveyor)

MAXIMUM WARRANTY

At Masaba, we stand behind our equipment with a five-year structural and two-year component warranty.

Masaba Portable GP3 Rear
Feed Front Discharge

Masaba Portable C125 Metso
Jaw Chassis w/hyd lift off feeder
(no crane required)

MAXIMUM CRUSHING/SCREENING

Wheeled plants allow utilization of the largest crushing and screening units available. As an example, 36x50 jaw primaries, 500 HP cones and 8x20 dual screens, with accessible conveyors for ease of maintenance and higher throughput.

MAXIMUM PRODUCTION

Your Masaba Portable Plant or accessories pair efficiency and productivity with the proven toughness and durability you have come to expect of Masaba products.

MAXIMUM FEED RATE

Our surge bins provide consistent flow to allow choke feeding and maximum screen utilization.

Masaba Portable 70 Ton Surge Bin
w/ Brute run-on jacks, vibrating pan
feeder, and folding 72" end discharge
conveyor.

MASABA Dual Screen Plant with Terex 8x20 3 Deck Screens

- 48" Plant Mounted Feed Conveyor
- 6 Cross Conveyors
- Reverse Chassis from typical configuration
- Complete Customization Available
