

## Ez-Pz Runoff Pump Safety Sheet

Before operating this pump, please read the Instruction Manual carefully and keep it stored in safe place for future reference.

– IMPORTANT –

PLEASE READ ALL SAFETY INFORMATION PRESENTED IN THIS USER GUIDE

### Warning:

1. Keep children away from this appliance and do not let them play with the product.
3. A high-voltage connector is in the unit. Be sure to turn off the main power supply prior to cleaning or performing any maintenance on the unit.
4. Never cut the power cord and replace it yourself. This may lead to serious injury or death.
5. Never open the pump housing or its components unless specified in this Instruction Manual
6. Unplug unit from power source immediately if it shows any sign of abnormal water leakage or problems removing water from the basin.
7. This appliance should not be used if the plug or receptacle is wet. Keep above floors to avoid getting this wet.
8. Do not operate if the power supply cord, plug or any other parts are damaged.
9. Close supervision is necessary when used by or near children. This appliance is not a toy. Keep away from children.
10. To avoid injury, do not contact moving parts.
11. Never yank on the cord to pull plug from the outlet.
12. Do not use this pump for other than intended use. The use of this product for applications other than non-commercial drainage collection may cause unsafe conditions and void product warranty.
13. Make sure pump is mounted securely to basin and ensure no fittings or attachments are tugging at the pump.

## **Electrical Warning: Risk of electric shock**

### **THIS APPLIANCE HAS LIMITED USER SERVICEABLE PARTS**

The following restrictions apply to this unit:

- NEVER use this unit to pump fluids other than water.
- NEVER run this unit without water.
- DO NOT use for commercial or industrial purposes.
- DO NOT use in conjunction with chemicals, foodstuffs, easily flammable or explosive substances.

### **USAGE CAUTIONS:**

#### A. Before operating pump:

1. Check that the power voltage and frequency conforms to the power ratings on the nameplate.
2. Don't lift, lower or carry pump by the power cable.
3. Always unplug the pump when not in use. Do not place hands in water where the pump is installed or before performing any maintenance and cleaning.
4. Do not add any lubricants to the pump.
5. Do not operate the pump without water as this will cause severe damage.
6. This pump is not self-priming. Make sure the water lines and pump(s) are filled with water prior to turning on.
7. Do not install or store the pump where it will be exposed to weather or temperatures below freezing.
8. Do not operate pump in water temperatures higher than 95 Degrees F.

## USAGE CAUTIONS:

B. The pump should not be used if:

1. Do not operate pump if the power supply cord, plug or any other parts have any damage.
2. If cord is damaged, pump should not be used and disposed of properly.
3. Pump has a wet plug or a wet receptacle.
4. Water discharge from pump is reduced.
5. A part is broken and water leaks in.
6. Anything abnormal occurs.
7. If people or body parts are in the water.

C. During pump operation:

1. Shut off power immediately to prevent motor from burning out when overloaded due to clogging from foreign materials.
2. Please consult store where you purchased the pump or [customerservice@thebucketcompany.com](mailto:customerservice@thebucketcompany.com) if the pump is not working properly. DO NOT disassemble or assemble the pump, as this may result in severe damage.
