

PRECIOUS  
CIRCUIT

Client and Product Catalogue

**Industry:** Software Development

**Company size:** 27.000 employees

**About the company:** A global company with almost 20 years of experience providing consulting and end-to-end software development services for leading brands like Google, Rockwell Automation, Electronic Arts and Santander, among others.

**Service provided:** a workshop for 20 employees from Cluj-Napoca offices

**Price:** 260 RON/participant

Our objective was to provide a valuable community experience for the people in the GLOBANT family through an immersive hands-on sustainability workshop that:

- Builds team relationships through shared artistic experiences
- Supports and develops individual creativity
- Provides the community with a physical memory of the experience in the end

### **Activity benefits**

#### **FLOW-BASED EXPERIENCE**

We are always encouraging optimal experience conditions, that defuse confusion through clear information from our trainers.

#### **HANDS-ON CREATION**

Our main workshop structure pillar is the experience that drives our production team most - the creation of unique jewelry through their own hands.

#### **A REMINDER TO KEEP**

The participants of the workshop will get to keep the final result of their creativity as something tangible, that they can wear with pride in their own craftsmanship.

Globant
