

ATLANTIS WIDEBOARD+

Our new 7mm Atlantis Wideboard Plus hybrid flooring features a Stone Polymer Composite core in between two layers on PVC vinyl, creating our most stable hybrid board to date. This ABA structure allows for increased underfoot comfort, durability and dent resistance. Featuring a wood-textured, matte finished, protective face layer, Atlantis Wideboard is available in a range of contemporary wood decors that mimic the natural grains and patterns of European oak and Australian native timber species.

Stain Resistant & Easy to Clean Protective Wear Layer

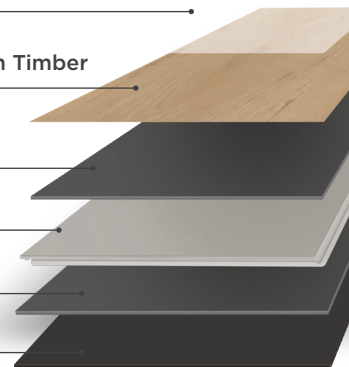

Decor of European Oak or Australian Timber
