Acoustic Rating	44 LnTw*	Sustainability	Forestry Stewardship Certification® (FSC®)
Warranty	25 Year Residential Warranty 10 Year Commercial Warranty		

Timber is a natural material and variations in colour, texture and other naturally occurring features occur between pieces and batches of the same species. Timber flooring, whilst dried during production, continues to take up and give up moisture during its life, depending on weather, aspect and local conditions. In so doing, some movement and changes to the surface of your floor are to be expected and will be apparent. This is normal and may include fine cracks on and between boards and changes in colour.
