

KAIA

GLOW

Designed by Sophie Dries
Paris 2020

GLOW is a new collection inspired by the Inner Glow – a sculptural lighting piece designed in collaboration with French architect and designer Sophie Dries. This collection sees Inner Glow's grandeur distilled into a more compact form suitable for the contemporary home. The designers' choice of paper is an evolution of the papier-mâché process and has a raw, textural quality that resembles stone.

The glass is custom-made for Kaia by an artisanal glassmaker in Germany's Bavarian forest with more than 400 years of experience creating one-of-a-kind pieces. Layered onto these mouth-blown glass eggs, the paper appears to 'grow' and take on a life of its own.
